

# VITOR MARTINS

## FRONT-END DEVELOPER

### ABOUT ME

I am a dedicated JavaScript developer with a strong passion for technology and web development. I focus on building reliable web applications using agile methods, always aiming to deliver high-quality and efficient results. With solid technical skills and a history of successfully delivering projects, I excel in fast-paced environments that value innovation. My curiosity and commitment to learning keep me updated with the latest web technologies, especially in JavaScript.

### EXPERIENCE

#### Front-end Developer Carlsberg Group

10/2021 – Present

As a Frontend Developer at Carlsberg, I work extensively on a B2B ecommerce platform and microservice backoffice application serving diverse markets with over a million monthly accesses and substantial revenue. My responsibilities include:

- Designing and maintaining RESTful schemas, managing queries, and mutations.
- Addressing bug fixes, conducting code reviews, and developing new features.
- Writing integration and unit tests using React Testing Library and Jest.
- Contributing to and implementing an internal Design System across our projects.
- Working under agile methodologies to ensure efficient project development.
- Monitoring performance using Datadog for continuous improvement.
- Deploying applications across various environments with CI/CD pipelines.
- Collaborating on and maintaining shared projects such as packages, boilerplates, and microservices within the organization.
- Participating in candidate interviews and facilitating the onboarding process for new team members.

**Tech stack:** ReactJS, Next.js, Typescript, Redux and Redux Toolkit, SASS, Styled Components, Storybook, Jest, React Testing Library, Webpack5, i18next, Prettier, ESLint, Husky, Git, Github

#### Front-end Developer WYgroup

04/2019 – 10/2021

As a Frontend Developer at WYgroup, I worked on a variety of projects, most of which were developed from scratch. We used an internal boilerplate maintained by the team to start new projects, ensuring consistency and efficiency in our development process. My responsibilities included:

- Setting up projects
- Addressing bug fixes and developing new features
- Collaborating on and maintaining internal boilerplate.

**Tech stack:** JavaScript (vanilla), jQuery, PugJS (with JSON), SCSS/Sass, Node.js, Gulp, HTML5, Bootstrap 4, Git, Github

## SKILLS

- React
- Next.js
- TypeScript
- Redux
- TanStack
- JavaScript
- NodeJS
- jQuery
- CSS
- SCSS/Sass
- HTML5
- Styled Components
- Tailwind
- Bootstrap
- Storybook
- Jest
- Git
- Github
- Husky
- ESLint
- Prettier
- Webpack
- AWS
- Jenkins
- Vitejs
- Astro
- Webflow
- Figma
- Photoshop
